

# Muhammad Nouman

MERN Web & Mobile App Developer

- Muhammad Nouman
- noumanthedev.netlify.app
- +92 3028954240

## ○ ABOUT ME

Full-stack MERN developer with practical experience in building functional web and mobile applications using React.js, React Native, Node.js, and Firebase. Comfortable applying core concepts of data structures and Object-Oriented programming in real world scenarios. Have independently managed and delivered full projects, focusing on reliability, maintainability, and timely delivery

## ○ PROFESSIONAL WORK EXPERIENCES

- THREE ARROWS — MERN STACK DEVELOPER  
JAN 2025 to Continue

## PROJECTS

### ○ Hub-staff Clone – Performance Tracking Desktop & Web

Technologies:  
React.js, Electron.js, MUI, Node.js, Express.js, MongoDB

A full-stack replica of Hubstaff with user/admin portals and a desktop app (Electron) that supports offline data sync, random screenshots, activity tracking, salary calculations, and multi-role management.

### ○ Win4Lux – MLM Competition System

Technologies:  
React.js, MUI, Node.js, Express.js, MongoDB, PayPal, NowPayments.

Full-stack MLM platform 57-functional pages, featuring user/admin dashboards, real-time commissions, automated multi-level logic, winner management, KYC, profile & wallet system, vouchers, and payment gateways (NowPayments, PayPal)

### ○ MobiCrypto – Crypto Mining + Binary & Unilevel Platform

Technologies:  
React.js, MUI, Node.js, Express.js, MongoDB

End-to-end platform for purchasing crypto mining packages with unilevel & binary commission logic. Includes self/auto mining modules, advanced reports, user/admin dashboards, and full CoinPayments crypto payment integration.

### ○ Unified Voter – Digital Voting Platform

Technologies:  
React.js, MUI, Node.js, Express.js, MongoDB, Firebase

Developed during internship, a secure voting system with MLM-style referral hierarchy, duplicate vote prevention, real-time statistics, and fully controlled election/candidate setup.

### ○ 7 Store – Ecommerce Store

Technologies:  
React.js, MUI, Node.js, Express.js, MongoDB

A platform with admin panel , handling hundreds of products seamlessly, with admin and user-panel and insights ad reports integrated uni-level MLM, profit calculations and bill printing like a POS system.
