SUMMARY

I'm a passionate full-stack developer with a strong focus on building high-quality, scalable, and user-centric digital experiences. With expertise across both frontend and backend technologies, I specialize in crafting robust web and mobile applications that are not only functional but also intuitive and visually appealing. I take pride in writing clean, maintainable code and developing solutions that are accessible to all users. Currently, my focus is on creating inclusive, performance-driven products that deliver real value and elevate the user experience.

MY PROJECTS

E-Commerce Platform

📅 02/2023 - 03/2023

- A full-featured E-Commerce platform built for both users and admins. It includes secure payment gateways like Crypto, PayPal, Stripe, and local payment integration. With user-friendly shopping, real-time order tracking, and a powerful admin dashboard for managing products, orders, and payments—this project is designed to showcase advanced e-commerce functionality with modern tech.

Real-Time ChatApp

📅 04/2023 - 06/2023

- A modern, fast, and secure real-time chat application inspired by WhatsApp. Users can send and receive messages instantly, see typing indicators, read receipts, and enjoy a smooth, responsive chat experience across all devic

Task Management App

📅 06/2023 - 07/2023

- A simple and clean To-Do portfolio app to manage daily tasks with ease. Built using React.js and Tailwind CSS, it showcases smooth UI, responsive design, and real-time task handling—perfect for productivity and portfolio display.

EDUCATION

FSC (Engineering)

Goverment Graduate Collage Faisalabad   📅 01/2021 - 01/2023
